

PROJECT UPDATE

Public Works Capital Improvement Program

Planning

Design

Construction

Complete

Thank you for your patience during the installation of the Terrewalk sidewalk panels and two new silva cell tree replacements on Park Lane this spring.

This first phase of the Park Lane enhancements addressed immediate concerns around sidewalk buckling, cracking and breaking. The City continues to seek funding for Phase II (the Flexible Festival Street). We are committed to keeping you informed and minimizing impacts of construction.

How did we do? We want your feedback on our communication efforts. Please take a moment to visit the project web site at www.ci.kirkland.wa.us/cipfeedback to complete a brief survey.

What is coming up? Check out our new Capital Improvement Program web site at http://www.ci.kirkland.wa.us/depart/Public_Works/Capital_Improvements.htm to learn about all of the upcoming and completed Public Works Capital Improvement Projects throughout the City.

Not connected to the internet? Call our construction hot line for up to date information about projects currently under construction or to ask a question or provide us with your feedback verhallv at 425-587-3838.
